Memo to File

Jill Walsh, Water Resources Program
Clark County (PSE Cost Recovery Back-fill)

These applications are being processed by HartCrowser Associates using back-fill money from the Puget Sound Energy/Lake Tapps project.

The applications are otherwise in good standing and are waiting to be processed for final decisions.

The digital draft ROE's are located in a sub-directory at **Y/Jill/Lake Tapps Backfill**.

WATER RIGHT APPLICATION REVIEW

Application Number: G2-28620

Applicant: Olson Living Trust
3520 SE Stiles Road
Washougal, WA 98671

WRIA: 28

Water: Well

This water and/or affected reaches downstream are inhabited by:

Based on: ☐ Site-specific observations ☐ WDFW database or GIS
☐ Literature ☐ Knowledge of this type of stream

Amount: cfs 20 gpm acre-ft/yr
Point of diversion: SE SE S5 T1 R4E
Point of use: SE SE S5 T1 R4E

WDFW recommended conditions:

- ☐ Instream flows in WAC 173-5
☐ This water right should be subject to any established lake levels, if any.

Instream flows based on: ☐ IFIM study ☐ USGS toe-width ☐ Tennant
☒ Other: Washougal River Fish Habitat Analysis (99-153; June 1999)

WDFW requests that water right be subject to the following instream flows or natural flow, whichever is less:

Jan-Dec 410 cfs

Instream flows to be measured at: USGS gage near Washougal at RM 9.2.

Other conditions requested by WDFW indicated by ☐:

☐ HPA

☐ Screen intake if accessible to fish (to be determined during application for HPA) according to WDFW standards.

☐ Based upon review of fish resources present, type and amount of water use, condition of habitat, and amount of water available, WDFW REQUESTS DENIAL of this application, in accordance with RCW 77.55.050, IF THIS SPACE IS CHECKED.

☐ WDFW recommends modification of this proposal to minimize impacts to fish.

☐ WDFW is a landowner and water user that will be affected by this proposed use.

☐ Please HOLD this application pending field review. WDFW staff will provide detailed response by

☐ Granting this water right application would adversely affect WDFW's existing water rights for a facility. We request the following conditions for this water right if it is granted.

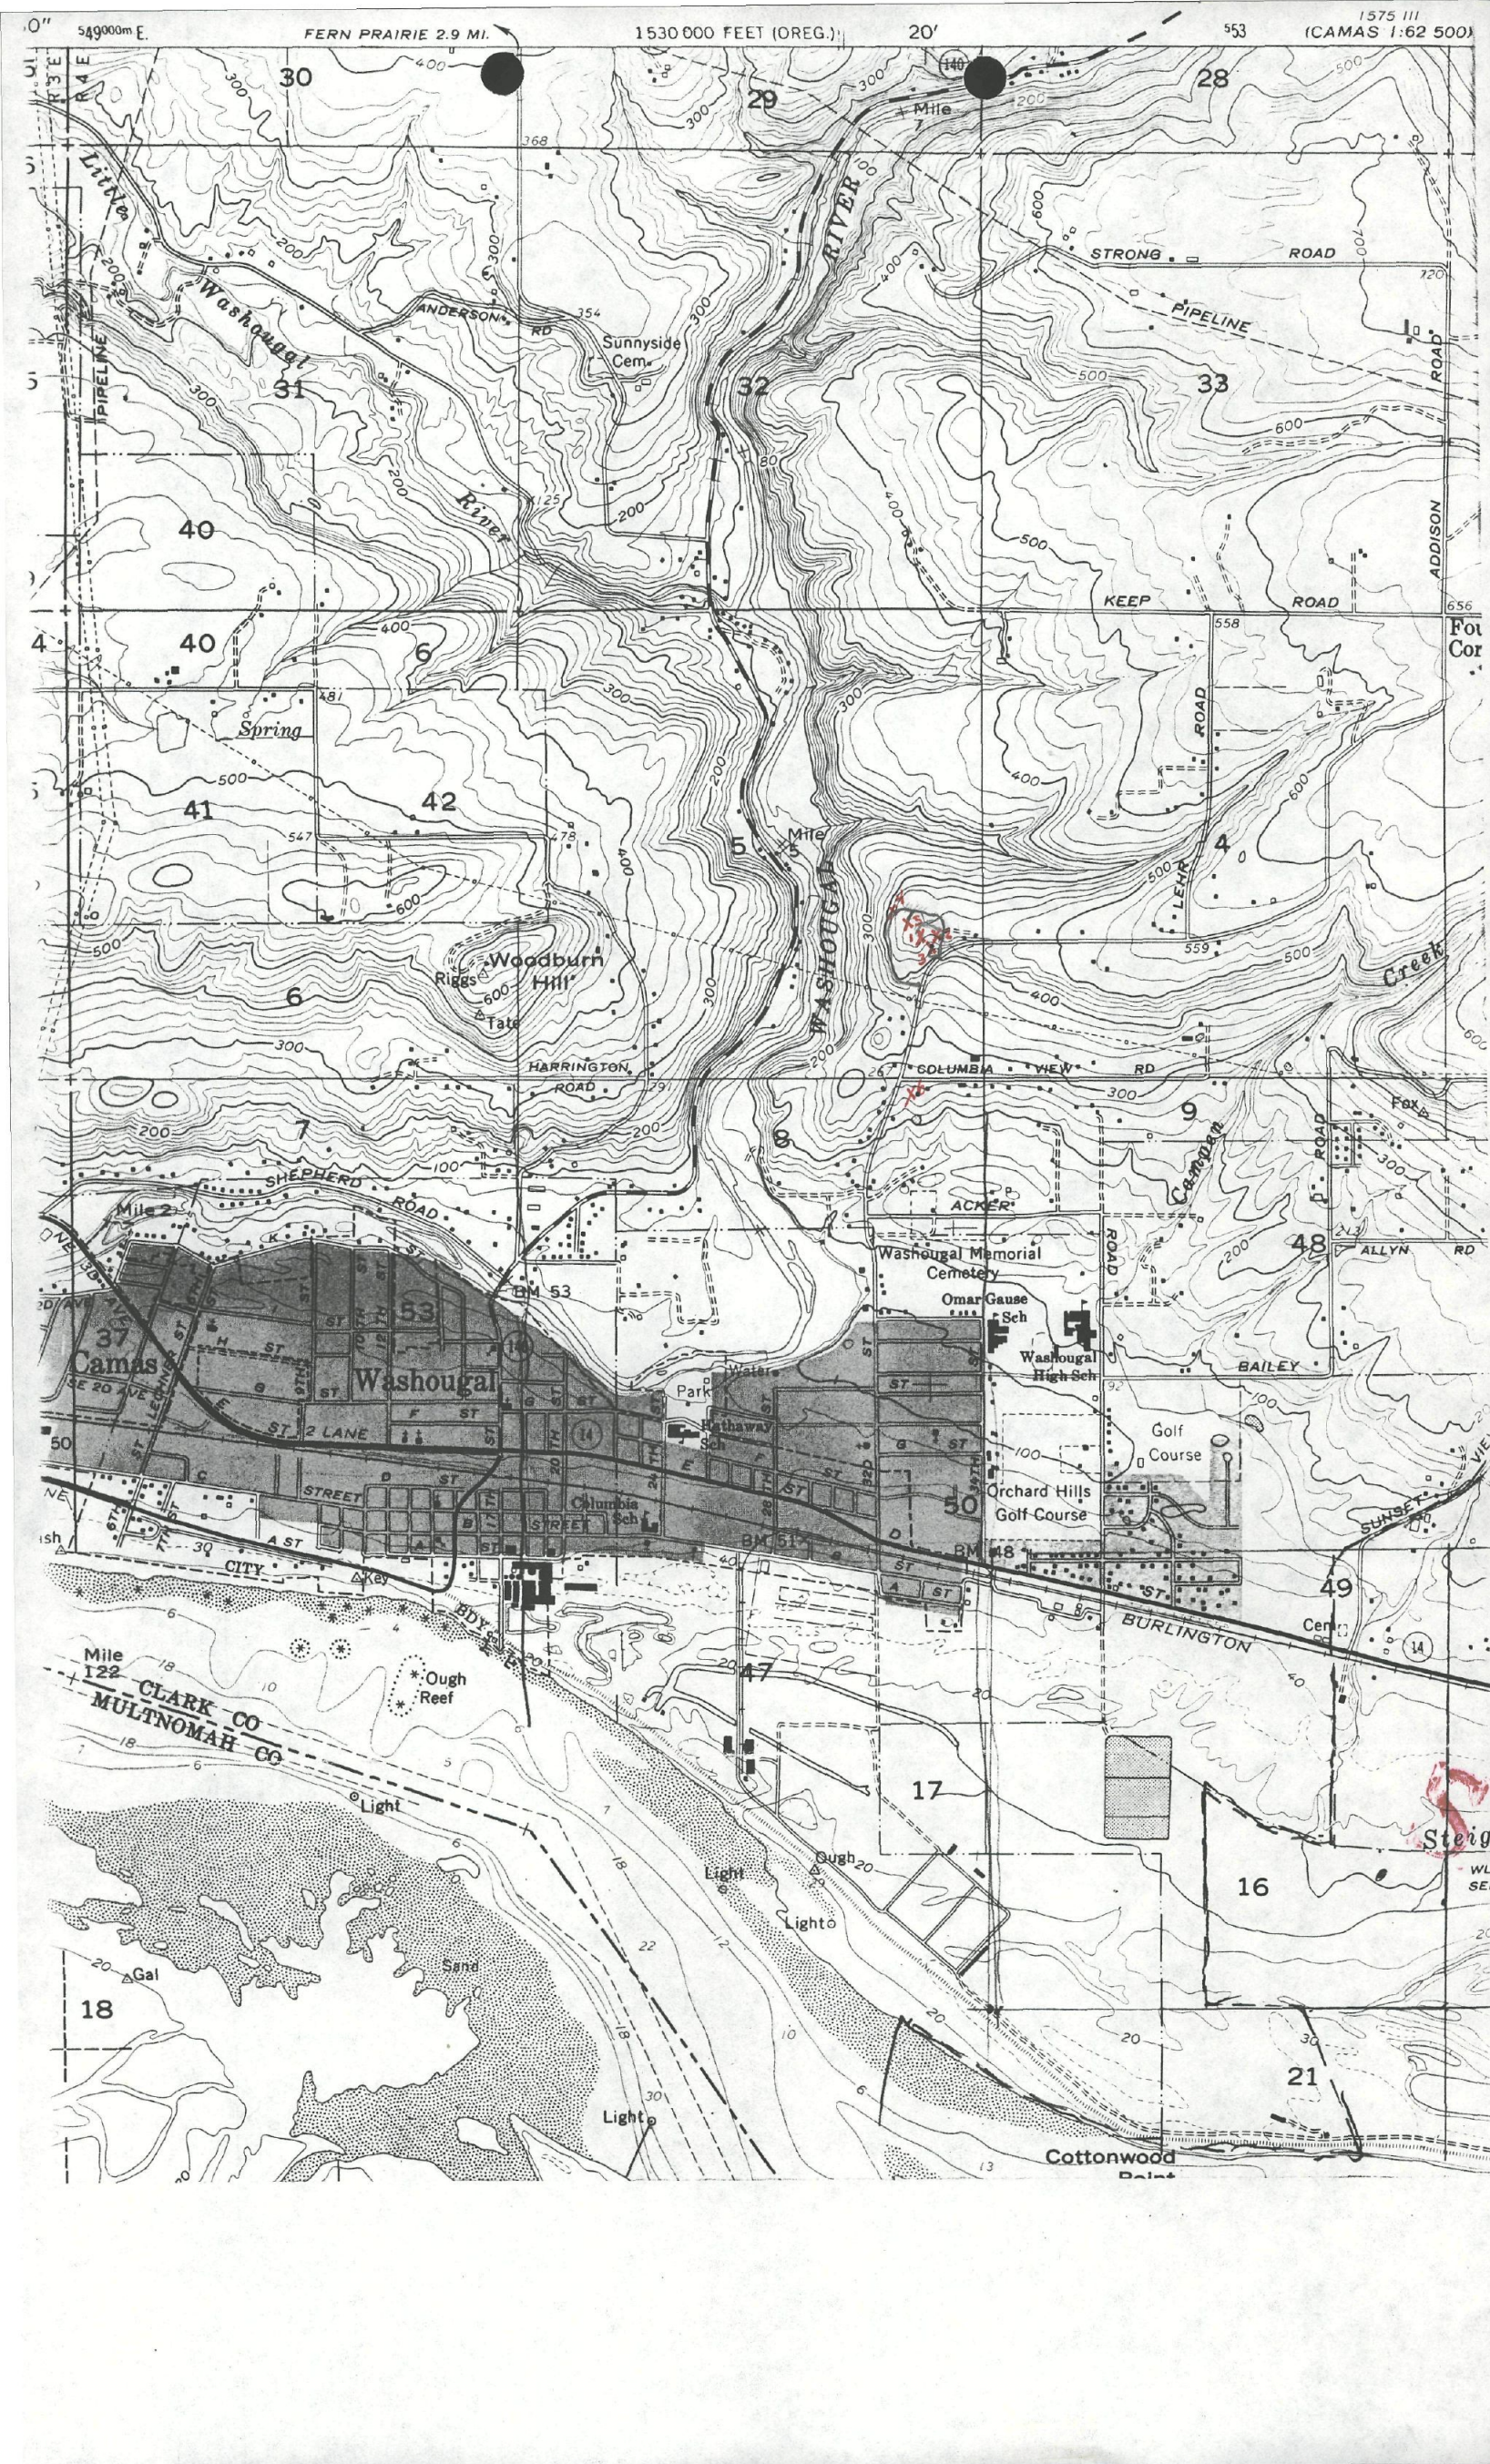

Rationale for WDFW recommendations if not based on existing rules or statutes: The single domestic portion of the request (0.02 cfs) could be considered separately as an exempt use. Stream flow requirements would only be in place to the extent that hydraulic continuity could be shown with the Washougal River.

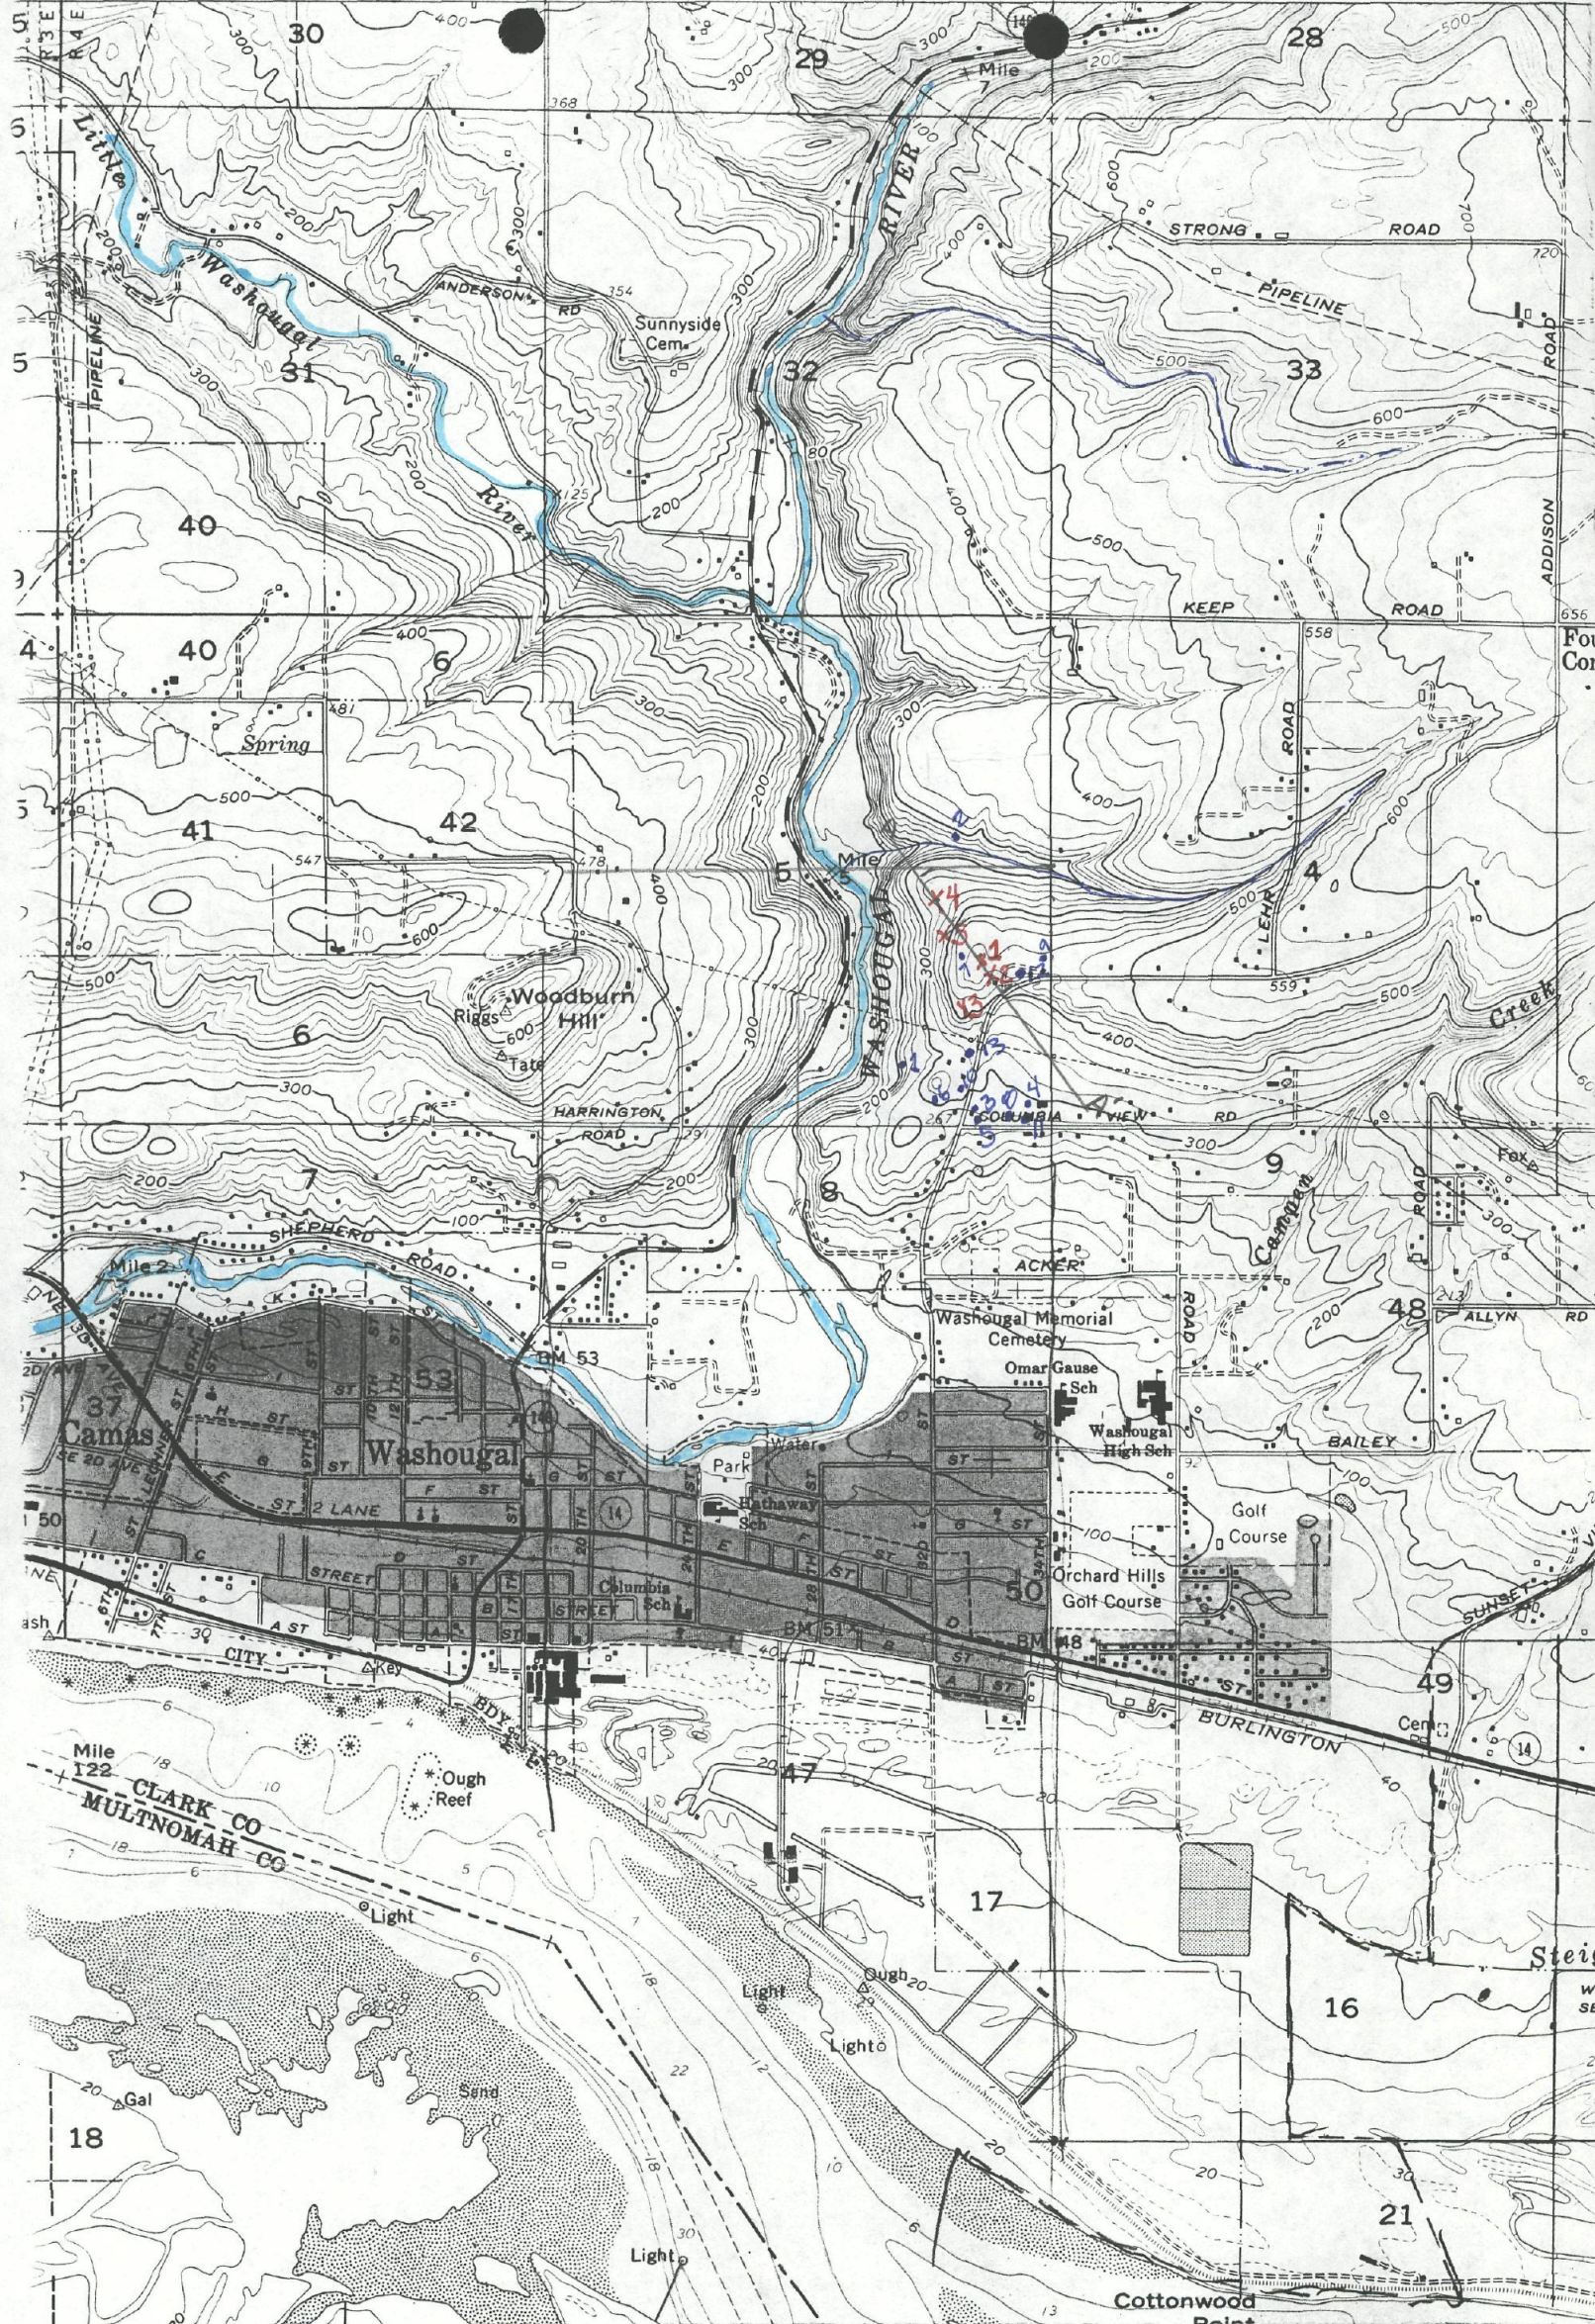

Additional Comments: WDFW leaves to WDOE the question of Hydraulic continuity between ground and surface waters. The Washougal River basin supports anadromous and resident salmon and trout listed as threatened under ESA or depressed by WDFW. Instream flow recommendations were set by calculating an average of the weighted useable areas for chinook and steelhead salmon spawning and determining the flow needed to provide that habitat. (Open File Technical Report- Washougal River Fish Habitat Analysis Using the Instream Flow Incremental Methodology and the Toe-Width Method For WRIAs 25, 26, 28, and 29. Washington State Department of Ecology; June 1999, Publication #99-153)

There is a Watershed Planning Unit active in WRIA 28. Studies are currently being conducted that will result in instream flow recommendations and management guidelines for issuing water rights. Unfortunately, a final product is about two years away.

Dear Mr. and Mrs. Olson:

Re: Ground Water Application No. G 2-28620

We acknowledge receipt of your affidavit of publication of notice in connection with the above-numbered application.

The water codes require that no action be taken toward issuance of a permit earlier than thirty (30) days after the last date of publication. This period of time is allowed for filing any protests or objections.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

A handwritten signature in cursive script that reads "Sheri Fox".

STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY
NOTICE OF APPLICATION
TO APPROPRIATE PUBLIC
WATERS

TAKE NOTICE:

That Vincent and Lillian Olson of Washougal, Washington, on September 22, 1992, under Application No. G228620 filed for permit to appropriate public waters, subject to existing rights, from a well in the amount of 20 gallons per minute as needed year round each year, for single domestic supply and irrigation during the irrigation season. The source of the proposed appropriation is located within SE1/4 SE1/4 of Section 5, Township 1 N., Range 4 E W.M., in Clark County.

Protests or objections to approval of this application must include a detailed statement of the basis for objections; protests must be accompanied by a two dollar (\$2.00) recording fee and filed with the Department of Ecology, at the address shown below, within thirty (30) days from October 20, 1992.

Vincent and Lillian Olson
3520 SE Stiles Road
Washougal, Washington 98671-9722

Dear Mr. and Mrs. Olson:

Re: Ground Water Application No. G2-28620

Your application for the appropriation of water has been assigned the above-referenced number. Please refer to this number in future correspondence.

Enclosed is a notice of your application which must be published once a week for two consecutive weeks in a qualified legal newspaper of general circulation in the County or Counties in which the storage, diversion, and use is to be made and in other newspapers as directed. A list of these newspapers in your county is enclosed. The applicant is responsible for the payment of the publication.

Please read the notice carefully to make sure it is correct. Should you find an error, please return the notice to our office for correction.

You should mail or deliver the enclosed notice to a newspaper regarding publication as soon as possible. When you receive the affidavit of publication from the newspaper, please forward it to this office promptly.

A site investigation will be made by this office before we issue a permit decision.

In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

Sheri Fox
